Explore Our Capabilities

Trusted Manufacturing Excellence

In the world of fashion, every detail matters-and every metre of fabric represents your brand.

Sai Fabrics Group is more than a textile printing company. We are a trusted manufacturing partner dedicated to helping fashion brands, garment manufacturers, exporters, and textile businesses bring their creative vision to life with confidence.

Based in Surat, the textile hub of India, we combine advanced digital printing technology with skilled craftsmanship and stringent quality standards to produce fabrics that consistently exceed expectations. Whether you require sample development, customized prints, or high-

volume production, our team ensures every project is executed with precision, reliability, and attention to detail.

Our commitment is simple: deliver outstanding quality, maintain consistent production standards, and build long-term partnerships based on trust.

Why Leading Brands Choose Sai Fabrics Group

Over a Decade of Textile Printing Expertise

With years of specialized experience in digital textile printing, we understand the technical and commercial requirements of the apparel industry.

Superior Print Precision

High-definition printing technology delivers vibrant colours, intricate detailing, and exceptional print clarity across every fabric.

Reliable Colour Consistency

Our controlled production process ensures uniform shades and repeat accuracy, helping maintain consistency across production batches.

Customized Manufacturing Solutions

Every brand has unique requirements. We offer tailored printing solutions designed to match your fabric, design, and production objectives.

Scalable Production Capacity

From prototype sampling to large-scale manufacturing, our infrastructure is equipped to support businesses of every size.

Timely Delivery

Efficient planning, streamlined production, and dependable logistics ensure your orders are delivered as promised.

Our Capabilities

Digital Textile Printing

High-resolution digital printing that brings intricate patterns, vibrant colours, and premium finishes to life.

Fabric Development

Supporting brands in developing production-ready fabrics for new collections and seasonal launches.

Custom Design Printing

Transform your artwork into beautifully printed fabrics with exceptional colour accuracy.

Sampling & Product Development

Validate colours, textures, and designs through professionally developed samples before moving to bulk production.

Bulk Manufacturing

Reliable production capacity designed for garment manufacturers, exporters, and fashion labels requiring consistent quality.

Quality Assurance

Every production batch is monitored through comprehensive quality inspections to maintain the highest manufacturing standards.

Industries We Serve

Our solutions are trusted by businesses across the textile and apparel ecosystem.

- Fashion Brands
- Garment Manufacturers
- Export Houses
- Buying Houses

ABOUT US

About Sai Fabrics Group

A Decade of Precision, Innovation and Trust

Sai Fabrics Group is a leading digital textile printing company based in Surat, Gujarat-the textile capital of India. For more than a decade, we have been serving garment manufacturers, fashion brands, exporters, and textile businesses with premium digital printing solutions that combine creativity, technology, and manufacturing excellence.

Our expertise extends beyond printing. We understand the complexities of textile production, the importance of colour consistency, the value of timely delivery, and the expectations of businesses operating in highly competitive markets.

Every metre of fabric we produce reflects our commitment to craftsmanship, quality, and customer satisfaction.

Our Vision

To become one of India's most trusted and preferred digital textile printing partners, recognized globally for innovation, precision manufacturing, and dependable customer relationships.

Our Mission

To empower fashion businesses with world-class digital textile printing solutions through advanced technology, superior quality standards, and a customer-centric approach that creates lasting value.

Our Core Values

Quality Without Compromise

We believe excellence begins with uncompromising quality at every stage of production.

Customer First

Every decision we make is focused on delivering value, reliability, and exceptional service.

Innovation

We continuously adopt modern technologies and improved manufacturing practices.

Integrity

We build long-term relationships through honesty, transparency, and accountability.

Continuous Improvement

Every project provides an opportunity to learn, improve, and exceed expectations.

Why We Exist

Fashion is constantly evolving.

Consumer expectations continue to rise.

Brands require manufacturing partners who can deliver speed, consistency, creativity, and reliability simultaneously.

Sai Fabrics Group exists to bridge this gap by providing dependable textile printing solutions that help businesses innovate confidently and manufacture efficiently.

Our Promise

Every order entrusted to Sai Fabrics Group is treated with the same commitment:

- Exceptional Print Quality
 - Accurate Colour Reproduction
 - Reliable Production Standards
 - Transparent Communication
 - On-Time Delivery
 - Long-Term Partnership
-

Why Businesses Trust Sai Fabrics Group

For over a decade, businesses have chosen Sai Fabrics Group because we consistently deliver more than printed fabric—we deliver confidence.

Our manufacturing processes are designed to ensure consistency across production batches, minimize quality variations, and support our customers in maintaining their own brand reputation.

From emerging fashion labels to established garment manufacturers, we work as an extension of your production team, providing dependable support at every stage of the manufacturing journey.

PAGE 3 - SOLUTIONS

Digital Textile Printing Solutions

Precision Printing. Endless Possibilities.

At Sai Fabrics Group, we offer comprehensive digital textile printing solutions that help fashion brands, garment manufacturers, exporters and textile businesses transform creative concepts into market-ready fabrics.

Our modern production processes, technical expertise and quality-driven approach ensure that every project is delivered with precision, consistency and reliability.

Whether you require sample development, custom printing or large-scale manufacturing, we provide solutions tailored to your business requirements.

Our Core Services

Digital Textile Printing

Our advanced digital printing technology produces exceptional image clarity, vibrant colours and intricate detailing on a wide variety of fabrics. Every print is engineered to maintain consistency and visual appeal while meeting commercial production standards.

Ideal for:

- Fashion Apparel
 - Ethnic Wear
 - Kids Wear
 - Women's Wear
 - Men's Wear
 - Designer Collections
 - Lifestyle Products
-

Custom Fabric Printing

Every brand has its own identity. Our custom printing solutions allow businesses to create exclusive fabric designs that reflect their unique style and market positioning.

From artwork optimisation to production, we ensure your designs are reproduced with outstanding colour accuracy and detail.

Sampling & Product Development

Launching a successful collection begins with the right sample.

We help clients validate colours, textures and print quality before full-scale production, reducing risk and ensuring confidence before manufacturing.

Our sampling process enables faster product development and smoother production planning.

Bulk Production

Our production capabilities are designed to support businesses of every size-from emerging fashion labels to established garment manufacturers.

Every production run follows standardised quality procedures to ensure consistency across every metre of printed fabric.

Colour Management

Colour consistency is one of the most critical aspects of textile printing.

Our production workflow incorporates colour calibration and controlled printing processes to minimise shade variations and achieve repeat accuracy across batches.

Quality Assurance

Quality is not inspected at the end-it is built into every stage of production.

Each order undergoes multiple quality checkpoints to verify print clarity, colour consistency, finishing quality and overall production standards before dispatch.

Fabric Options

(Customize as per actual offerings.)

We provide digital printing solutions across a wide range of garment and fashion fabrics, including:

- Polyester
 - Cotton
 - Rayon
 - Viscose
 - Linen
 - Silk Blends
 - Satin
 - Crepe
 - Chiffon
 - Georgette
 - Knitted Fabrics
 - Woven Fabrics
-

Applications

Our printed fabrics are widely used across multiple industries and apparel categories.

- Women's Fashion
 - Men's Fashion
 - Kidswear
 - Ethnic Wear
 - Sportswear
 - Casual Wear
 - Corporate Uniforms
 - Hospitality Uniforms
 - Fashion Accessories
 - Home Furnishings
-

Why Our Solutions Deliver Better Results

- Superior Print Resolution
 - Excellent Colour Reproduction
 - Consistent Production Quality
 - Flexible Order Quantities
 - Efficient Production Planning
 - Timely Delivery
 - Dedicated Customer Support
-

PAGE 4 - INFRASTRUCTURE & QUALITY

Built on Technology. Driven by Precision.

Behind every successful fabric lies a carefully controlled manufacturing process.

At Sai Fabrics Group, our infrastructure combines modern digital printing technology, experienced professionals and rigorous quality standards to ensure every order meets the expectations of today's competitive textile industry.

Advanced Manufacturing Infrastructure

Our production facility has been designed to support efficient workflow, consistent quality and scalable manufacturing.

Every stage-from artwork preparation to final dispatch-is managed through a systematic production process that prioritises accuracy and efficiency.

(Developer: Add factory photographs here.)

State-of-the-Art Digital Printing Technology

We utilise advanced digital textile printing systems capable of producing:

- High-definition prints
- Vibrant colour reproduction
- Intricate design detailing
- Smooth gradients
- Consistent repeat patterns
- Commercial-scale production quality

Our investment in modern technology enables us to deliver reliable output while reducing production errors.

Skilled Production Team

Technology alone does not create exceptional products.

Our experienced production professionals oversee every stage of manufacturing to ensure precision, consistency and attention to detail.

Their expertise enables us to maintain high standards across projects of varying complexity and scale.

Quality Control Process

Every production batch follows a structured quality assurance process.

Our inspections include:

- ✓ Artwork Verification
- ✓ Colour Matching
- ✓ Print Alignment
- ✓ Fabric Inspection
- ✓ Surface Finish Evaluation
- ✓ Final Quality Check
- ✓ Packaging Inspection

This systematic approach helps ensure that only approved products are dispatched to our customers.

Colour Consistency

For fashion brands, maintaining consistent colours across production batches is essential.

Our colour management process is designed to minimise variations and achieve repeat accuracy, helping customers maintain brand consistency and reduce production risks.

Efficient Production Planning

Our organised production scheduling enables us to optimise workflow and deliver projects within committed timelines.

Efficient planning allows us to accommodate both sample development and large production orders without compromising quality.

Sustainable Manufacturing Approach

We continuously strive to improve manufacturing efficiency by adopting responsible production practices, optimising resources and reducing unnecessary waste wherever possible.

(Update according to actual sustainability initiatives.)

Our Commitment to Quality

Quality is more than a process-it is the foundation of our business.

Every order represents our customer's brand, reputation and business.

That responsibility drives us to maintain disciplined production standards and deliver fabrics that consistently meet expectations.

Why Infrastructure Matters

Choosing the right textile printing partner is not only about machinery.

It is about choosing a manufacturer capable of delivering:

- Reliable Production
- Consistent Quality
- Transparent Communication
- Scalable Capacity
- Dependable Timelines

Sai Fabrics Group combines all of these strengths to become a trusted manufacturing partner for businesses across the textile industry.

PAGE 5 - INDUSTRIES WE SERVE

Industries We Empower

Digital Textile Printing Solutions Tailored for Every Business

Every industry has unique design, fabric and production requirements. At Sai Fabrics Group, we understand these differences and deliver customized digital textile printing solutions that align with your business goals, quality standards and production timelines.

Whether you are an emerging fashion label or a large-scale garment manufacturer, our expertise helps you create products that stand out in competitive markets.

Fashion Brands

Fashion moves fast, and so do we.

We collaborate with fashion brands to develop premium printed fabrics that capture seasonal trends while maintaining exceptional colour consistency and production quality. From concept development to commercial manufacturing, we help brands transform creative ideas into successful collections.

Garment Manufacturers

Reliable production begins with dependable fabric printing.

Our standardized manufacturing processes, scalable production capacity and consistent quality make us a preferred partner for garment manufacturers seeking efficient and reliable printing solutions.

Export Houses

International buyers expect consistency, precision and timely deliveries.

Sai Fabrics Group supports export houses with high-quality printed fabrics that meet demanding production schedules and global quality expectations, helping businesses strengthen relationships with overseas customers.

Buying Houses

We work closely with buying houses to ensure printed fabrics meet approved specifications, colour standards and delivery commitments. Our disciplined production processes simplify sourcing while maintaining consistent product quality.

Designers & Boutique Labels

Creativity deserves precision.

We help designers and boutique brands transform original concepts into beautifully printed fabrics that reflect their unique identity. Our sampling services enable quick validation before production, allowing brands to innovate with confidence.

Uniform Manufacturers

Uniform fabrics require durability, consistency and professional appearance.

Our printing solutions support educational institutions, corporate organizations, hospitality businesses and industrial sectors with dependable fabric quality suitable for repeated use.

Home Furnishing Brands

Our capabilities extend beyond apparel.

We also support businesses developing premium printed textiles for home décor and furnishing applications, combining vibrant aesthetics with manufacturing consistency.

Private Label Manufacturers

Private label brands rely on dependable production partners.

We provide flexible manufacturing support that helps businesses deliver high-quality products while maintaining brand consistency and customer satisfaction.

Industries We Support

- Women's Fashion
 - Men's Fashion
 - Kids Wear
 - Ethnic Wear
 - Casual Wear
 - Designer Collections
 - Sportswear
 - Corporate Apparel
 - Hospitality Uniforms
 - Lifestyle Products
 - Home Textiles
 - Private Labels

Frequently Asked Questions

What fabrics do you print?

We offer digital textile printing on a wide range of woven and knitted fabrics suitable for garments, fashion accessories and home textile applications.

Can you print our custom designs?

Yes. We specialize in custom digital textile printing based on client-supplied artwork and approved production specifications.

Do you provide sampling before bulk production?

Absolutely. Sampling is an important part of our production process and allows clients to evaluate print quality before full-scale manufacturing.

What industries do you serve?

We work with fashion brands, garment manufacturers, exporters, buying houses, designers, uniform manufacturers and textile businesses.

Can you handle large production quantities?

Yes. Our manufacturing processes are designed to support both sample development and bulk commercial production.

How do you ensure quality?

Every production batch undergoes multiple quality inspections including artwork verification, colour matching, print inspection and final quality checks before dispatch.

Where is Sai Fabrics Group located?

Our manufacturing facility is located in Surat, Gujarat, one of India's leading textile manufacturing hubs.
